Tickets:

Machine uses standard five window pull-tab-tickets, so called because of the perforated tabs you pull off of the back to reveal the game symbols (shown left).

Online report data:

Reports from the machine can be viewed online 24hrs a day. This allows you to track and maintain verifiable audits on machine takings, that are independent to the machine.

If getting online to view the reports is a problem - don't worry, we send a printout of the last 30 or so reports out with every invoice. So you'll always have a way of making the takings balance.

A sample report is shown to the right.
